PROFESSIONAL SUMMARY

UI/UX Designer and Information Technology undergraduate at Sri Lanka Institute of Information Technology (SLIIT), with experience designing user-centered web interfaces and collaborating with developers on digital products. Skilled in Figma, Adobe XD, wireframing, prototyping, high-fidelity UI design, responsive design, and usability principles. Experienced in creating interfaces for web and mobile experiences, including Galaxy Connect and a hotel reservation concept. Interested in designing clear, accessible, and intuitive digital experiences.

DESIGN SKILLS

Design & Prototyping: Figma, Adobe XD, wireframes, interactive prototypes, high-fidelity UI

UX Research & Analysis: User research, competitive analysis, usability principles

UI Design: Responsive design, layout grids, color theory, visual consistency

Collaboration: Developer handoff, cross-functional collaboration, design iteration

Technical Awareness: HTML, CSS, JavaScript, React.js

EXPERIENCE

Software Intern | Sri Lanka Telecom (SLT)

October 2025–April 2026

UI/UX Design — Galaxy Connect

• Designed user-centered interfaces for the Galaxy Connect platform, focusing on usability and visual consistency.

• Created wireframes, prototypes, and high-fidelity UI designs using modern interface design principles.

• Collaborated with development team members to support the implementation of designs.

Cross-functional Product Work

• Worked alongside software development activities for an e-channeling platform and a restaurant POS system.

• Built understanding of how interface decisions connect with backend workflows and application functionality.

SELECTED PROJECTS

Sienna Retreat — Hotel Website UI | Figma, Photoshop

• Designed a hotel booking interface focused on a clear, polished, and user-friendly reservation experience.

• Designed room-selection flows and a reservation journey intended to make booking easier for users.

Galaxy Connect — Platform UI/UX | SLT

• Created wireframes, prototypes, and high-fidelity interface designs with attention to usability and consistency.

• Worked with developers to support translation of design concepts into the product.

Online Hotel Reservation System | Java, JavaScript, HTML, CSS

• Contributed to a hotel reservation application with room, guest, and meal preference selection.

• Applied user-focused thinking to booking steps and administrative reservation workflows.

Smart Schooler — Web Application | Collaborative

• Contributed to a learning platform concept for sharing achievements and organizing personalized learning activities.

• Features included posting, reposting, liking, and commenting.
